

## How many Macs can I install 7toX on?

7toX for Final Cut Pro can be installed on any number of computers, but each License Key you purchase can be used to activate the software on only one computer at a time.

## Activating 7toX for Final Cut Pro

After you install 7toX for Final Cut Pro onto a computer, it will need to be activated with a License Key before it can be used. Each License Key can be used to activate only one computer at a time. If you want to activate the software on another computer, you'll need to deactivate it first. See [Moving 7toX for Final Cut Pro to another computer](#) for details.

You'll temporarily need internet access for the activation so that the software can connect to our server and confirm the License Key.

- When the software is first run it will display a Software License Agreement. Scroll down to read through the license agreement and click the **I Agree** button at the bottom of the page.
- Enter the License Key that was given to you and click the Activate button. The software will send the License Key to our server for confirmation.
- You'll get a message in green saying that you've successfully activated your license. Click the Continue button.

If the software could not be activated with the License Key, you'll get a message in red explaining the reason, such as:

- This is not a valid License Key — check to make sure you have entered the License Key correctly;
- This is not a License Key for 7toX for Final Cut Pro — make sure you're entering a License Key that can be used to activate 7toX for Final Cut Pro;
- The License Key has already been activated — if you want to activate 7toX for Final Cut Pro on this computer you'll need to deactivate the other installation before activating this one, or purchase another License Key.

## Moving 7toX for Final Cut Pro to another computer

To move 7toX for Final Cut Pro from one computer to another, you'll deactivate it on the first computer, then activate the installation on the second computer.

To deactivate the software on one computer and activate it on a different computer, both computers will temporarily need internet access.

- On the first computer, choose Deactivate from the application menu.
- Confirm that you want to deactivate the software by clicking the Deactivate button.
- You'll receive a message in green saying that you've successfully deactivated your license.
- On the second computer, run 7toX for Final Cut Pro, and follow the instructions for [Activating 7toX for Final Cut Pro](#).
